MISSOURI BOTANICAL GARDEN

MISSOURI BOTANICAL GARDEN GEORGE ENGELMANN PAPERS

St. Joseph's Church,
Schenectady, N. Y. June 18, 1884

Dear Dr. G. Engelmann!

At the request of a gardener living in Albany, I am sending you by mail the branch of a western Abies, which a man is cultivating in his garden, with the request to give me the botanical name.

May I in the future in similar cases send you doubtful specimens to be identified? Recently the gentlemen in Boston declined a similar request (because of too much work.)

Wishing you for your advanced age an iron health, a happy disposition and stirring strength for the best of science, I am gratefully,

Your devoted,

J. H. Wibbe, Dr. Ph.
